## NEW INDUSTRIAL COMMITTEE IS EXPECTED TO REPLACE PRESENT ONE

Washington, Oct. 21.—President Wilson has dictated a message to the industrial conference, it was learned at the White House today. The letter was addressed to Secretary Lane, chairman of the conference. The letter gives the president's views upon the conference situation.

President Wilson dictated the letter from his bed and signed it with a lead pencil.

The letter was understood to be a personal letter to Secretary Lane, voicing an appeal that the conference remain in session until some definite action had been taken on the questions pending. The letter, it was understood was to be laid before the conference at the discretion of Secretary Lane.

Secretary Tumulty conveyed the letter to Secretary Lane personally.

Washington, Oct. 21.—If President Wilson's industrial conference breaks up today the work of forming a new conference will be under way before nightfall.

President Wilson today knew that his conference in its present form was a failure. Not a single incident in the sessions has escaped his attention. Bernard Baruch of the public group, though he has not often seen the president in the White House sick room, is in almost daily contact with Admiral Grayson, the president's physician and confidant, and thus a channel of communication is established between the conference room and the president's bed side.

It was only by adjournment Monday afternoon that a smash up of the conference was avoided. The sole issue of Gary vs. Gompers which is the only issue before the congress and the only issue which the conference has discussed in its life of over two weeks, came to a head with Gary's announcement yesterday that he would not arbitrate the steel strike.

Today this issue has been shifted to the White House sick room.

President Wilson, however, with all his power, will not be able to force the conferees to pass Gompers' resolution demanding arbitration in the steel strike. All the president can do is to let this conference prove its failure and then order its reorganization.

The president knows that his conference has not had an opportunity to consider industrial conditions in the United States. He realized that, at its very opening, the labor men brought up the steel strike issue, in the form of Gompers' resolution and that this one issue is the only business that has come before the conference.

He may find it necessary to wipe the slate of this conference clean of all business, including the Gompers' resolution, and start all over again, perhaps with a new personnel.

## PLANS MADE TO TIE UP STEEL CORPORATIONS' RAIL SHIPMENTS

Washington, Oct. 21.—Plans for tying up all the railroad transportation facilities of the United States steel corporation were discussed today at a conference between John Fitzpatrick, chairman of the national committee in charge of the steel strike and the presidents of the four railroad brotherhoods. Fitzpatrick made this announcement upon his arrival here today.

The brotherhoods will be asked to call out all members handling cars

used for the shipment of steel from the mills under strike ban.

Fitzpatrick said the strikers "were marshalling their forces for victory." "We got 'em," said he with a grin, "and all organized labor is going to help us hold 'em. Our position shows increased strength this week. The ladies' garment workers gave us \$250,000 for the commissaries we are starting to feed the strikers and their families. Other unions also are contributing generously."

## FIRST 100 PER CENT SCHOOL REPORTED

Miss Mary McGray, teacher of Aleigh school in Beavercreek township, was the first teacher in the county to report a 100 per cent membership of her school in the Junior Red Cross drive.

Mrs. W. O. Custis, of this city, who is in charge of the Junior drive, received notice of the accomplishment of Miss McGray's school during the last week. Every member of the school is now a member of the Red Cross, having joined during the Junior campaign.

There was a close race between Miss McGray's school and that of Prof. S. E. Shump's grammar school at Bellbrook. Prof. Shump's check and report of 100 per cent efficiency, being recorded shortly after that of Miss McGray's school.

These reports give two schools in the county the record of 100 per cent membership and Mrs. Custis expects to hear from other schools which have accomplished this feat shortly.

## ADMIT THAT TOLEDO OUTCLASSED THEM

John R. Beachem, Business Manager of the Xenia Public Schools has received a telegram from G. R. Pulford, sporting editor of the Toledo Blade, asking if the assertion of a Toledo morning paper that Xenia played Scott High Saturday in a weakened condition due to having played a game Friday, was true.

According to the wire, the Toledo morning paper asserted that Scott High had arranged the game with Xenia on Saturday, knowing that the locals would be in a weakened condition following the game with Troy on Friday.

In defense of the good name of the Scott High team, Mr. Pulford wanted a statement from Mr. Beachem. The latter wired that Xenia was defeated because it was outclassed by the lake town school and that the locals had no complaint against the treatment accorded them by the Scott High team.

## COURT HOLDS PARTIES NOT RESIDENTS OF OHIO AND REFUSES A DIVORCE

Holding that the parties gave up their residence in Ohio when they went to Florida in December, 1918, Judge C. H. Kyle today dismissed the divorce suit of Mary Elva Ross against Wilbur Ross of Bowersville, and the defendant's cross petition for divorce and custody of the child.

The court allowed the hearing to continue on questions affecting property rights and alimony.

Husband and wife were both called to the witness stand and testified that they sold all their property including a coal business in Bowersville, and went to Palm Beach, Fla., with the intention of locating in Florida or Arizona if they could find a suitable place. Judge Kyle held that by this action they surrendered their domicile in Ohio, and were not entitled to sue for divorce here until they had re-established a residence by living here for a year.

This was the second effort the Ross's made to secure a divorce. The first time both petitions were dismissed on the grounds that proper legal service had not been obtained on the parties.

Mr. Ross took his little son, Donald, and left the home of his wife's mother in Palm Beach in February, 1919, it was testified, and returned to Bowersville, bringing suit here shortly afterward for divorce and custody of the child. Mrs. Ross alleged in her petition, and also on the witness stand, to which she was called first when the case was called Monday morning, that residence here and were not entitled her husband left the house, for the to a divorce.

## MIDDLETOWN WEDDING WILL SURPRISE XENIANS

The marriage of Miss Helen Adams of this city, to Mr. Roderick J. Booth of Middletown, which took place in Middletown last Thursday, will come as a surprise to the many friends of the bride in this city.

The following is from the Middletown Journal:

A wedding that will come as a surprise to many, although it has been known for some time that Cupid had linked the names of the two young people is that of Roderick J. Booth, son of Mr. and Mrs. E. C. Booth of Tylus avenue and Miss Helen Adams of Xenia, O.

Accompanied by Mr. and Mrs. Geo. Mohler of this city the groom went to Xenia, returning today to Middletown with Miss Adams.

Rev. Ewald Haun, of the Protestant Episcopal church performed the ceremony.

The bride wore a dark blue tailored suit with hat and shoes to match. While she is not known here, Mrs. Booth is conceded a very attractive and popular girl in Xenia, and a large gathering of new friends wait to welcome her to this city.

The groom is a most enterprising young man of sterling qualities and in every respect worthy of his bride. He was one of the first to become a member of Uncle Sam's ranks and served almost two years in the regular army, 12 months having been spent in active service.

Since his return to Middletown he has been established with his father in business at the Middletown Newsstand and has been very successful in his connections there.

A dinner to be given by the groom's parents Sunday will be a feature of their return home. Mr. Booth will domicile his bride in furnished apartments on Broad street.

## IRVIN HARNER BUYS PARTNER'S INTEREST

Ralph Kester, who with Richard O. Fay, was one of the original owners of The Fashion Shop, the dry cleaning, pressing and tailoring establishment in the Bijou Theater building, has sold out his half interest of the concern to his partner, Irvin Harner. Mr. Harner has assumed full charge of the business and will operate it from now on, under the The Fashion Shop name, with himself as sole proprietor. Harry Grumbley, tailor connected with the concern, will retain his connection.

Mr. Kester and Richard O. Fay, started the business last April 1st. Mr. Fay later selling out his interest to Irvin Harner.

## FARMER WILL SELL FRESH MEAT AT THE CITY MARKET

A real, honest-to-goodness, fat and freshly killed porker, will be on municipal market next Saturday.

The newly killed pig will be sold from one of the booths by a farmer who will kill the meat for the market, according to City Manager Kenyon Riddle.

It is a fact that although hogs have dropped to half their price on foot of a few months ago, the meat has dropped little or nothing. Butcher shops are selling pork at practically the same price although hogs are selling at 12c per lb on foot now as compared with 24c a few months ago. For this reason it is thought that the newly killed meat will be most popular.

The market has been growing in size and popularity since its inauguration a few weeks ago. Last Saturday all five booths were taken. One of these was occupied by Market Master Frank Thompson, with fresh fruits and vegetables while the others were taken by country women who offered home cooked goodies and chickens and produce. Their supplies were bought out in a short order.

## CONFERENCE TO STOP COAL STRIKE TAKES NO ACTION

Washington, Oct. 21.—The conference of coal operators and coal miners called by Secretary Wilson in an attempt to prevent the threatened coal strike, adjourned shortly before 1 o'clock without taking action. The conference will reconvene this afternoon.

The morning session was taken up by the miners who made a statement of their demands and presented to the conference statistic justifying their demands.

This afternoon the coal operators will state their side of the case.

"We have no reason to change our position yet," said John L. Lewis, acting president of the United Mine Workers of America, as he left the conference.

## WANT CHILDREN TO RETURN TO SCHOOL WEDNESDAY

That the East Main street school building is in safe condition for housing school children, was the report of a state inspector of workshops and factories, who was called here by the local school authorities, following action taken by East End residents in refusing to permit their children to attend the school.

As a result of the report, Superintendent of Schools C. A. Waltz asks that all pupils who have been staying away from school since the meeting of last week, advocate such a procedure, return to school Wednesday morning. Preceding the meeting out of which grew the movement to prevent the pupils from using East Main street school, some plastering fell off of the walls in the school.

East End residents called a meeting at which they advised that children stay away from the school, and it has been empty since that time. The plastering has been repaired now, and according to the report of the state inspector, the building is perfectly safe for occupancy.

Owing to the fact that the Board of Education hopes to build a new school building on East Main street shortly, it is not thought advisable to spend a great amount of money repairing the old building.

It is expected that parents will be satisfied with the examination of the building, and that the pupils will return to school Wednesday morning in response to the wishes of Superintendent Waltz.

## BURGLARS ENTER XENIA STORE FOR THE THIRD TIME

Burglars who gained an entrance by climbing through a window over a one-story addition in the rear, secured 80 cents at the store of the Greene County Hardware Company Sunday night.

The burglary was the third within a period of a few weeks at this place, small sums being taken each time. The work is believed to be that of boys or young men. The hardware company does not keep a light in the rear of the store and it is easy for a burglar to be present in the store without the possibility of being seen by the police.

Mr. Walter Scott, a former Xenia boy, is visiting his aunt, Mrs. Joseph Glasco. He has been in the army for thirteen years and is a cornetist in the 25th Infantry band located at Nogales, Arizona. This is his first visit here since 1905 and he is enjoying the meeting of relatives and old friends.

The parent association of East Main street school met at Lincoln school building last night to receive the report of the committee sent to Columbus to lay the dangerous condition of the East Main street building before the State Fire Marshal. After the committee reported, Mrs. Amanda C. Evans, president of the association and Dr. H. R. Hawkins reported that Mr. Mays, a deputy from the State Fire Marshal's office made an examination of the building yesterday afternoon. Both committees fully informed the large crowd that had assembled and by unanimous vote, it was decided not return their children to East Main street school until an official report is received from the State Fire Marshal as to the safety of the building. This course was thought wise so that public responsibility will attach in the event of an accident or the collapse of the building. The association re-elected the same officers for the ensuing year as follows: Mrs. Amanda C. Evans, president; Mrs. Ida B. Shields, vice president; Mrs. W. C. Allen, secretary; Miss Rilda I. Phelps, assistant secretary; Miss Elizabeth, pressant secretary. A committee was appointed to arrange for an acquaintance meeting of the East End with the Superintendent and members of the Board of Education in the near future.

## 'WONDERFUL' MRS. NICHOLS' FIRM OPINION

I'm Better and Stronger in Every Way, Since Taking Trutona," She Declares.

Portsmouth, Ohio, Oct. 20, 1919—"It's wonderful," was the brief yet convincing manner in which Laura Nichols, 44 years old, of 517 Seventh street, Portsmouth, recently expressed her high regard for Trutona, the perfect tonic.

"I had been suffering from a nervous trouble for the past five years," she said. "My stomach was out of shape, too. My appetite was poor and I was in an unusually constipated condition. For the past two or three months I have eaten hardly enough to keep a bird alive."

"The good I've derived from Trutona in the short time that I've been using the medicine is simply wonderful. Why, I haven't experienced one of my nervous spells since I began using Trutona. As for my appetite—I can eat anything now and I enjoy the food more than I have for some time. In short I feel better and stronger in every way now. I think Trutona is a wonderful medicine and I can recommend it to anyone troubled as I was and feel sure it will help them."

Trutona is especially beneficial for stomach, liver and bowel troubles, catarrhal complaints, nervousness, sleeplessness, loss of appetite and the like and has proven an almost unfailing reconstructive tonic for overcoming after effects of pneumonia, influenza, deep cold and the like.

Trutona is now being introduced and explained in Xenia at Sayre & Hemphill's.

## INFLUENZA

People Urged to Use Great Precaution as Isolated Outbreaks are Expected

Deadly pneumonia often follows common chest colds and you cannot use too many safeguards. Dash Balm is one of the best and should be applied liberally at the first sign of a cold or soreness of throat or chest. Keep a jar handy at all times. There's nothing just as good, so insist on having Dash Balm. Jars only 25 cents. Allan J. Dash Co., Mfg. Chemists, Olean, N. Y.

## Why Glando Pine is Found in Nearly Every Home

Glando Pine is the most wonderful cough medicine made because it acts so pleasantly and quickly. It relieves all kinds of throat irritations, stops a cough and opens up the air passages. Glando Pine is a volatile liquid which gives off fumes when it comes in contact with the delicate membrane of the mouth and throat. These fumes enter the air cells of the bronchial tubes and lungs and cut the phlegm or mucus which fills the lungs in pneumonia and causes the tickling sensation in bronchitis. If Glando Pine is taken when the first signs of a cough or cold appear it will destroy cold, grip or influenza germs that may be lodged there before they have time to get imbedded into the delicate membranes of the lungs or bronchial tubes. Glando Pine should always be kept in the home so it can be used when the first indication of a cold appears. Glando Pine has a wonderful record for curing long standing chronic coughs. Its record is marvelous.

Glando Pine is put up in a concentrated form. Get three ounces (50 cents worth) of your druggist and mix it with any good syrup or honey and you will have a pint of the best cough medicine ever made. Keep it on hands and use it freely. Can be given to very young children in perfect safety. Full directions with each bottle.

The Gland-Aid Co., Paulding, Ohio.

## The Brunswick

for the SEVEN AGES OF MAN —

### "THEN-A SOLDIER"

THE returned Soldier, having been stirred into fighting action by martial music, has discovered its genuine value. Music with true tone holds for him indescribable charm.

Opera with its historic background—sweet ballads of by-gone days—stirring marches that thrill his soul! These, together with the popular jazz dances, are all perfectly reproduced on The Brunswick.

When The Brunswick made its advent into the world of music a sensation was recorded. New day phonograph music had come at last! This was made possible by the Brunswick Method of Reproduction, composed of two scientific features—the Ultona and the Tone Amplifier.

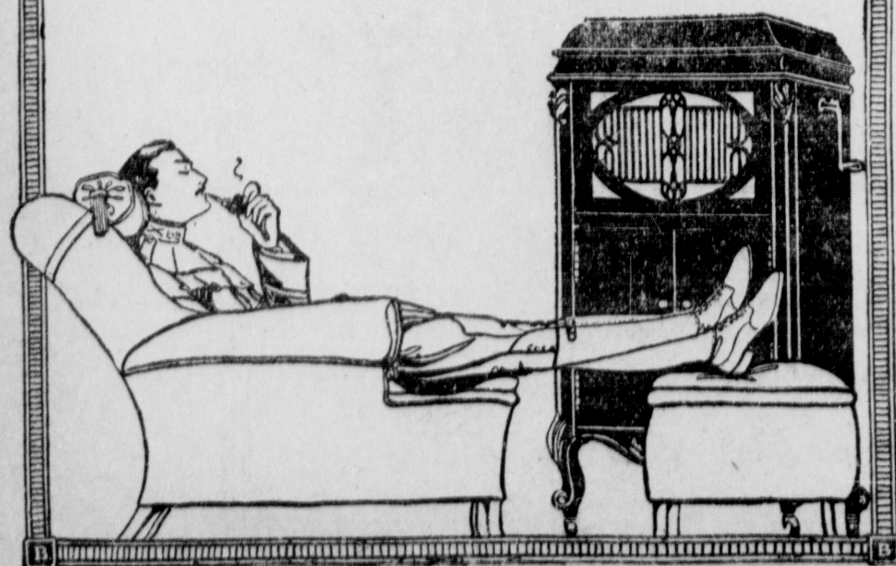

The ULTONA plays all records truer, finer, sweeter. It is not a makeshift contrivance but involves a genuine principle of sound. A slight turn of the hand presents the right needle, diaphragm and weight for playing any record.

The TONE AMPLIFIER is an oval shaped vibrant tone chamber. Like the sound board of a fine piano or violin it is made entirely of wood and free from metal. Thus it gives the requisite tonal volume and eliminates all harsh, thin, metallic sounds. It meets all advanced acoustical and musical laws.

## WHAT ST. LOUIS IS DOING ABOUT THE HOUSING PROBLEM.

With \$750,000 already subscribed by manufacturers and bankers toward the \$2,000,000 fund for the St. Louis Home and Housing Association, plans have been announced for the first group of houses to be built to relieve housing conditions in that city.

Among the large subscribers are the International Shoe Company, \$100,000; Associated Retailers, \$100,000; Wagner Electric Manufacturing Company, \$50,000; St. Louis Lumber Trade Exchange, \$50,000; Brown Shoe Company, \$50,000.

The project is sponsored by the Chamber of Commerce and more than a score of civic organizations, and contemplates the election of houses in industrial districts to be sold to wage earners on the easy payment plan. The buildings are to be constructed of brick and tile. The cost will be about \$1,500 each.

Stock in the corporation is sold at \$100 a share, and is nonassessable. The investment will yield no profit to the shareholders, and the finances will be controlled by a board of directors representing civic and church organizations.

## SOLDIER'S INSURANCE.

The army insurance plan, of which so much was expected, has turned out a failure. This is said to be partly due to defects in the plan and still more to the indifference of the men concerned.

Practically all of the soldiers took out insurance policies while in the service. It was hoped that they would keep them when they were mustered out. The government's plan provided for the exchange of the war policies for any of the ordinary peace-time policies, according to each man's preference, and in terms more favorable than those of private insurance companies. But the veterans have not been much interested. More than 3,000,000 of them have already given up their insurance, either because they found it hard to pay the premiums or because they did not care enough about insurance as an investment.

An attempt is being made, in Senator Harding's bill, to correct the defects discovered in the present scheme. This measure is expected to pass soon. There should be a renewed effort then to persuade the veterans to take advantage of this insurance protection on the easy terms offered. It will be good for them and good for the country if this system, intended to eliminate the evils attending the old soldier's pension system, can be made to succeed.

## MR. GOMPERS'S ILLNESS.

There are few men in the public eye whose loss would be more felt at the present crisis in national industrial affairs than that of Samuel Gompers, president of the American Federation of Labor, and there will be many be-

lief his immediate followers in the organized labor movement who will share the anxiety with which the announcement of his nervous collapse was received. There have been times when in his long association with labor unionism Mr. Gompers has been regarded as a radical influence in the life of the nation; but that is not the feeling now. America is beginning to learn what a conservative force he is at present and how strong a bulwark he has been in recent times against the rising flood of radicalism in the ranks of the labor unions. He has not always been able to control the forces which he directs, and today large elements in the unions are openly defiant of restraint. This country has need of labor leaders like Mr. Gompers, and the hope will be widespread that the favorable auguries for his early recovery may be speedily fulfilled and that he may resume his place in the Industrial Conference and at the council table of his own organization.

## WAS LIKE MAGIC FOR WELL KNOWN COLUMBUS MAN

Declares he was about ready to take to his bed from kidney trouble, indigestion and disordered stomach.

Now he can't say enough in praise of the new medicine Drecto, for the great relief he obtained.

"I was just about ready to give up and go to bed, but hearing of the great work the new medicine, Drecto, was doing, I secured a bottle, and it seems almost like magic what it did for me," are the words, in a signed statement for publication, made by Mr. J. T. English, the well-known plumber of South Columbus, Ohio.

"Ever since I was a boy I've had a weak stomach, suffered agonies from cramping, gastritis, swelled up feeling after meals and watery belching. I think my stomach disorder brought on my kidney trouble. I had heavy, dull pains in my back, loins and hips. It pained me to stoop over or bend about.

"Since giving Drecto a fair trial, I'm like a different person. All those pains have been relieved the drowsy tired feeling passed away, and my stomach is stronger and digests the food better than in years, in fact, I'm feeling better than in many a day, after this Drecto gets all the credit from me."

When the stomach becomes deranged so that the food fails to digest but lies in the stomach forming gas, causing a full sensation, when the back aches and kidneys do not function properly, when the bowels are constipated and you have headaches, dizzy spells, coated tongue, and the nerves are on edge, get a bottle of Drecto, and see the change in your condition in a week's time.

All good druggists now sell Drecto, and it is highly recommended in this city by

SOHN'S DRUG STORE.

NOTICE OF NOMINATIONS OF CANDIDATES FOR MEMBERS OF THE BOARD OF EDUCATION. Gen'l Code Sec 4938.

The following is a list of the names of nominations of candidates for members of the Board of Education of Xenia City, school district, Greene County, Ohio, made by Nomination Papers filed with the Board of Deputy State Supervisors of Elections of said County, as provided by law: J. W. SANTMYER, H. S. LESOURD, C. H. LITTLE. Dated this 18th day of October, 1919. BOARD OF DEPUTY STATE SUPERVISORS, GREENE COUNTY, OHIO. J. M. FLETCHER, Chief. Attest: J. KENNETH WILLIAMSON, Clerk. 10-21-23.

Now Said to Be as Often Acquired As Inherited.

It is generally and chiefly indicated by eruptions and sores, but in many cases it enlarges the glands of the neck, affects the internal organs, especially the lungs, and if neglected may develop into consumption.

It causes many troubles, and is aggravated by impure air, unwholesome food, bad water, too much heat or cold, and want of proper exercise.

Hood's Sarsaparilla, the medicine that has been used with so much satisfaction by three generations, is wonderfully successful in the treatment of scrofula. Give it a trial.

If a cathartic or laxative is needed, take Hood's Pills—there is nothing better for biliousness or constipation.

THE ULTIMATE.

Of all sad words that make 'em pine, Or bring a curse—

"Jones fumbled on the five-yard line" There's nothing worse.

Herein you have the limit set For foe at bay;

Unless you have a cagey bet The other way.

### Spicy Breezes.

Fussy Diner—Waiter, switch off that electric fan; it's wafting the flavor of that gentleman's sausages into my soup.—Boston Transcript.

### YOUR ATTENTION PLEASE.

A Foley Cathartic Tablet is a safe remedy for sick headache, biliousness, bloating, sour stomach, gas, bad breath, indigestion, constipation, or other conditions, caused by clogged or irregular bowels. They cause no gripping or nausea nor will they encourage the "pill" habit. Just fine for persons too stout, Sayre and Hemphill.

### HELPFUL WORDS

From a Xenia Citizen.

Is your back lame and painful? Does it ache especially after exertion?

Is there a soreness in the kidney region? These symptoms suggest weak kidneys.

If so there is danger in delay. Weak kidneys get weaker fast. Give your trouble prompt attention.

Doan's Kidney Pills are for weak kidneys. Ask your neighbor.

Your neighbors use and recommend them.

Read this Xenia testimony.

Eli Burrell, carpenter, 313 E. Church St., says: "Doan's Kidney Pills do just as recommended and even more. Doan's have kept me free from kidney trouble. I used to suffer with backache and my kidneys didn't act right. Doan's Kidney Pills regulated my kidneys and my back stopped bothering me."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Burrell had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

## WE ALL HAVE A DUTY BY THIS GREAT AMERICAN

"A man who would not offer his life for his country—which is protecting his life and doing so much more than that—does not deserve to have a country!"

That was the great battle-cri that Roosevelt drove home to the people of America day after day and month after month. He was saying it to thousands at Madison Square Garden in New York City when this picture was taken.

He gave his own life to America

as truly as though he had died in the trenches, when he gave his four boys—one of whom was killed—and his own strength and nerves and heart.

That is why a campaign has been opened to raise \$5,000,000 throughout the United States to build a memorial to him. Five hundred thousand will be raised in this state. Are you helping?

## How Fat Folks May Become Thin

If you are suddenly becoming stout, or if you have been putting on flesh for years, the cause is generally the same—lack of oxygen carrying power of the blood. This trouble occurs mostly in men and women over thirty, but it may be easily treated and without any of the privations most fat people imagine necessary to reduce their weight. Simply go to your druggist and get a box of Phynola. Take five grains after each meal and at bedtime. Wonderful results should be quickly accomplished by this simple treatment. Be sure however you get the genuine Phynola. It is put up in original sealed packages, is pleasant to take and gives prompt results. Sayre & Hemphill or drug store can supply you.

## EFFORT TO KEEP MARRIAGE SECRET IS NOT SUCCESSFUL

Although they had planned to keep it a secret, the marriage of Miss Gertrude Holland to Mr. Harry Lott, both of this city, has leaked out among friends of the young couple. The young people went to Newport, Kentucky, last Tuesday where the marriage ceremony was quietly celebrated. The bride wore a blue tailored suit, with black hat and shoes.

Following the ceremony the young people returned to this city, and Mrs. Lott went to the home of her mother, Mrs. Charles Harner, of 76 Center street. They had intended to keep the marriage quiet for a time, but Mr. Lott's brother, Frank, discovered their secret, and the marriage is now being informally announced among friends of the couple.

Mrs. Lott is a pretty and charming young girl, who is popular among a large circle of friends. She was formerly connected with the Xenia Herald, but since last May has been employed on the South Charleston Sentinel. Mr. Lott's home is between Selma and South Charleston, but he has made his home here at different times, and for some time has been connected with James Hurley in the dairy business in this city.

Mr. and Mrs. Lott have not come to housekeeping as Mr. Lott plans to give up the dairy business here in two weeks, and he and his bride will go to Kansas City, where he will take up mechanical engineering at the University of Kansas.

## REV. MACAULEY TO BE CHAIRMAN OF NOON LUNCHEON

Rev. George S. Macauley, who will leave soon to take charge of his new pastorate in Baltimore, will be chairman in charge of the regular noon luncheon of the Chamber of Commerce Wednesday noon.

Rev. Macauley was invited to have

charge of the meeting at a meeting of the forum committee of which Elbert L. Babb is chairman. It will probably be the last public appearance of Rev. Macauley before he leaves and much interest is being shown by his many friends in securing reservations to make certain to be present at the luncheon.

Beecher E. Hess, who is in charge of the subsidiary organizations of the Cincinnati Chamber of Commerce will be the principal speaker at the luncheon. Mr. Hess's topic has not been announced but it is assured that his address will be interesting to all members of the Chamber of Commerce, as he is a Chamber of Commerce worker and has also been an American City Bureau man.

Owing to the fact that a larger crowd than has yet been present at a noon luncheon is expected to be on hand reservations should be made early, and those who expect to attend should phone their reservations to the Chamber of Commerce before nine o'clock.

## YOUNG COUPLE WED AT CATHOLIC CHURCH

The marriage of Harold Leon Barnes, and Miss Mary Louise Donovan, daughter of Mr. and Mrs. James Donovan, of South Miami Avenue was solemnized at the parsonage at St. Bridget's church Monday morning at 9:30 o'clock, the Rev. Albert Burke pastor of the bride officiating.

The only witnesses to the ceremony were the attendants, Carl Kelley, of Wapakonetta and Miss Anna Kiley of this city. The bride wore a lovely tailored suit in midnight blue, and her hat was black with a nasturtium colored facing. She wore corsage bouquet of sweetheart roses. After breakfasting at the bride's home the young people started at 10:45 on a honeymoon trip to Pittsburgh, where they will spend a week. On their return they plan to go to housekeeping in a cosy home which they have fitted up on Chestnut street.

Mr. Barnes is employed at the Xenia Shoe Manufacturing Company and is a son of Mr. and Mrs. Roy S. Barnes, of East Second street. His bride is the only daughter of Mr. and Mrs. James Donovan, and is a popular girl in her group of friends.

## COURT NEWS

Alleging that his wife neglected her household duties, Samuel C. Watson has brought suit for divorce from Eva B. Watson, whom he married Sept. 7, 1918. He declared that his wife flew into a rage when he suggested that she attend to her duties. He also charges that she delights in making fun of him because he is a cripple and that last May she threw his things into the yard and ordered him to leave.

William Conwell has brought suit

for divorce from Mary E. Conwell charging gross neglect. He says the defendant refused to cook the meals for him and their three children, and finally abandoned them. He asks for the custody of the children.

## ROOSEVELT CAMPAIGNERS ARE NAMED

T. H. Zell, Greene County Chairman of the Roosevelt memorial drive, has just announced his county organization for the campaign which will be taken care of by chairmen in each of the townships and districts throughout the county.

The district chairmen are as follows:

Xenia City, T. H. Zell.  
Xenia, 4th ward, R. E. Holmes.  
Xenia North, W. B. Bryson.  
Xenia South, J. Q. Matthews.  
Osborn, Harry Frane.  
Fairfield, Rev. J. C. Schulz.  
Yellow Springs, J. N. Wolford.  
Clifton, R. H. Edwards.  
Cedarville, Morton Cresswell.  
Ross township, James E. Lewis.  
Jamestown, H. A. Frazer.  
Bowersville, F. A. Stewart.  
Paintersville, Dr. LeRoy Haines.  
Spring Valley, Arch Cospey.  
Bellbrook, S. E. Shupp.  
New Burlington, W. C. Smith.  
Beaver Creek, Rev. J. F. Tapey.  
Wilberforce, Carl C. Jenkins.

All schools of the county will participate in the Roosevelt Memorial exercises at the close of the campaign, on October 27. Each school will devote one hour to the exercises which will be prepared by the teacher.

Contributors to the fund throughout the county should turn in their money to their township chairman as given above, if they are unsolicited, as it may be impossible for the workers to see everyone in the districts.

Chairman T. H. Zell has been working tirelessly in forming his organization and preparing for the drive and if the result of the drive is in direct ratio to the work of the chairman in preparing for it, the Memorial Fund quota of Greene County will go well over the top, as a lasting tribute to the "greatest American."

## MISS NOLA ARY AND RALPH BRILEY MARRIED

Miss Nola Ary, youngest daughter of Mrs. Mary Ary, of Collier street, became the bride of Ralph E. Briley Saturday noon at the parsonage of the Trinity Methodist church, the Rev. Brown officiating. They will live for the present with the bride's mother. Mr. Briley is the son of Mr. and Mrs. Henry Briley of West Second street, and served fourteen months overseas.

## MISSING MAN IS FOUND NEAR ADENA

Word was received late Sunday evening that William Fogle, son of W. S. Fogle of this city, had been located at Adena, a small town in Jefferson county, some 12 miles from the Pennsylvania line.

His father, accompanied by Henry W. Jones, of the Crim Detective agency, left at once to bring him home—Washington, C. H. Herald.

Fogle has been missing since he was in an auto accident several weeks ago, after which he disappeared. It was learned that he bought a ticket for Zanesville and that when he arrived there he bought a ticket for Newark. Police all over this section of the state were looking for him. It is believed that he suffered a blow to his head in the accident that caused him to lose his memory.

## S. O. S.

If Constipated, Bilious or Headachy, take "Cascarets"

Sick headache, biliousness, coated tongue or sour, gassy stomach—always trace this to torpid liver; delayed, fermenting food in the bowels. Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.

Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels.

A Cascaret tonight will surely straighten you out by morning. They work while you sleep.

## Thought His Time Had Come—Disappointed

"I never was more surprised in my life than when I took the first dose of May's Wonderful Remedy. My stomach trouble had been of eight years' standing, sometimes so bad as to cause convulsions, followed by hemorrhage. I thought my time in this world was short, and believed it the last medicine I would ever take. It is now eight weeks since, and I am feeling better than for many years." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Sayre & Hemphill, and druggists everywhere.

### DUKE OF AOSTA REPORTED AN EXILE IN BELGIUM.

Duke of Aosta.

The Duke of Aosta, eldest cousin of King Victor Emmanuel of Italy, has been exiled from Italy because of a leaning toward the poet Captain Gabriele D'Annunzio, leader of the Fiume coup, according to reports from Rome. The Duke aided the Italian arms extensively in the war. In 1917 he was in command of Italy's Third Army, which was opposed to the combined forces of Germany and Austria on the north. The reported banishment of the Duke was received with interest here because of his having once been in line for the Italian throne. It is understood that the Duke of Aosta will live in Belgium.

### LAZINESS ACTING AS SPUR

Good Work Done by Those Who Dislike It, and Want to Get Through and Rest.

The best work is done by the lazy people who want to get through and rest.

The industrious, active body, busy as a bee, and always at it, is very liable to become a putterer.

Mark Twain called attention to the fact that the ant, to whom the sage recommended the sluggard to go, spends most of his energy in running around like a drunken Indian.

The great humorist hated to move; he used to get the boy in the printing office a nickel to sweep around him, so that he would not have to take his feet off the table. At seventy he confessed that "all exercise is lathsome."

Laziness is not good in itself; but when joined to conscientiousness and a sense of responsibility, as it often is, it is the very best worker.

The world's work is done by those who do not like it. Nine persons out of ten would quit what they are doing if they could.

At the very beginning of Arnold Bennett's novel, "Hilda Lessways," is a luminous bit of philosophy:

"Hilda hated domestic work, and because she hated it she often did it passionately and thoroughly."

Mark Twain hated to write.—Dr. Frank Crane, in Farm Life.

### Simple Home Remedy Advised For Rose And Hay Fever

Anyone Can Make a Pint For Trifling Sum and Used In Time May Prevent Annual Attack

"No matter how severe your yearly attack be, No matter how distressing or humiliating—

Its intensity can be reduced to a harmless, mildness," says a Kentucky druggist who believes from what he has seen that this simple home made remedy is a most important discovery.

He has seen the most severe and apparently unconquerable cases reduced to what might be called a mild cold in twenty-four hours.

In many cases where the patient started treatment a week or ten days before the expected attack the unwelcome yearly visitor failed to appear with anything like its usual intensity.

People who want to try this new treatment can make a pint in a few minutes.

Four one ounce of Mentholized Arcline into a pint bottle then fill the bottle with water that has been boiled. Gargle daily as directed and snuff or spray the nostrils twice daily.

That's all there is to the treatment which so many sufferers have found to be a true friend.

Mentholized Arcline in one ounce vials is dispensed by all the better pharmacies.

# How Much Profit Do You Pay Us?

The United States Department of Agriculture informs us that you as an average American Citizen, eat about one hundred and eighty-two pounds of meat (181.83 lbs.) in a year.

Based on these figures, if you had purchased all of your meat foods from us, Swift & Company would have profited to the extent of 48½ cents during the first eight months of our present fiscal year.

In that eight months we averaged to make two-fifths of a cent on each pound of meat and all other products sold.

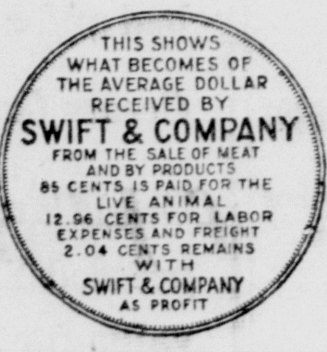

This profit you paid us equals 6 cents a month—or just about one street car fare.

More than 30,000 shareholders looking to us as trustees of their invested money, had to be paid a reasonable return out of your 6 cents a month. Volume alone made this possible.

Now figure for yourself how Government interference in the operations of the packing business is going to reduce your meat bill!

Let us send you a Swift "Dollar." It will interest you. Address Swift & Company, Union Stock Yards, Chicago, Ill.

### DEATH SENTENCE CHANGED TO LIFE

Atlanta, Ga., Oct. 21.—Governor Hugh Dorsey made a brief but feeling pronouncement on the baseness and general unworthiness of ingratitude last Thursday when he learned of the escape of Joe Webb, whose sentence to be hanged he had commuted to life imprisonment about two weeks ago. Webb effected his second escape from the Chattanooga County chain gang Tuesday. He escaped from the Fulton county jail some time ago but was recaptured.

"There's ingratitude for you!" exclaimed the Governor today. "I am surprised and pained that executive clemency should be so little appreciated." The Governor at once began consideration of offering a reward for Webb's capture.

### NECESSARY TO KEEP BOOKS

Without Accurate Accounts No Firm of Business Can Be Successfully Carried On.

Accountancy, which is the science of systematizing business, has a history that runs back at least 4,000 years. Very early in the development of nations it was found that in commerce as well as in the affairs of state, systematic and careful account-keeping were indispensable. These systems were, at first, crude and laborious, but they at least kept the finances of the nation and the marts of trade from being chaotic.

The invention of double entry book-keeping early in the fifteenth century by the merchants and bankers of Venice gave to the commerce of Europe an invaluable trade instrument, and one without which the great commercial enterprises of the later centuries could hardly have existed.

And so it has been on down to the present time; there has been a parallel progress between the accomplishments of commerce and the science of accounting, and it is known to every man in business that the former could not continue without the latter. Even the most unbusinesslike people know this much, and we can hardly imagine anyone silly enough to attempt to carry on any kind of a business enterprise without keeping books.

Bookkeeping, as a formal subject of study, is taught in most of the public and private schools of this country, but it is only that form of bookkeeping that applies to the affairs of the merchant or the shopkeeper. The public has yet to learn that bookkeeping is quite as necessary to the prosperity of the wageworker, the salaried man, the farmer and the housekeeper as it is to the shopkeeper, the merchant or the manufacturer.—Exchange.

### FLOWERS' HOURS OF SLEEP

That They Differ Is a Proof of the Adaptability of Everything in Nature.

That flowers sleep is evident to the most casual observer. The beautiful daisy opens at sunrise and closes at sunset, whence its name "day's eye." The morning glory opens its flower with the day. The "four o'clock" awakes at four o'clock in the morning, but closes its eyes in the middle of the day, and the dandelion is in full bloom only while there is strong light. The habit of some flowers is certainly curious, and furnishes one of the many instances which prove the singular adaptability of everything in nature. The reason is found in the method by which this class of flowers is fertilized.

Flowers which are fertilized by night flying insects derive no advantage from being open by day; and, on the other hand, those which are fertilized by bees would gain nothing by being open at night. Nay, it would be a disadvantage, because it would render them liable to be robbed of their honey and pollen by insects which are incapable of fertilizing them. It is possible, then, that the closing of flowers may have reference to the habit of insects, and it may be observed, also, in support of this, that wind-fertilized flowers never sleep.

### Blind Horses.

The manner in which blind horses get about without coming to more harm than they do is remarkable. They rarely, if ever, hit their heads against a fence or stone wall, and will sheer off when they come near one. It appears from careful observation that it is neither shade nor shelter which warns them of the danger. On an absolutely sunless and windless day their behavior is the same. Their olfactory nerves doubtless become very sensitive, for they will poke their heads downward in search of water fifty yards before they come to a stream crossing the roadway.

It cannot be an abnormally developed sense of hearing which leads them to do this, for they will act alike though the water be a stagnant pool. Men who have been blind for any great length of time develop somewhat similar instincts to blind horses.

### LADIES! DARKEN YOUR GRAY HAIR

Use Grandma's Sage Tea and Sulphur Recipe and Nobody will Know.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

### Nine Most Useful Words.

### GOITRE REDUCED THREE INCHES IN THREE WEEKS FOR DAYTON, OHIO, LADY

Mrs. Esther Happell, R. R. 15, Dayton, Ohio, says in her own home paper, The Dayton News, "I had goitre for five years. It caused such a closeness in my throat at times, that it would choke me and I could hardly talk. I thought it was my tonsils. After using Sorbol-Quadruple three weeks, this was all relieved and my neck reduced three inches. I am glad to tell my experience, even by letter." Sorbol-Quadruple comes in small bottles containing enough for most cases. It is applied externally and will not stain or irritate the skin. It dissolves the goitre and leaves the parts in healthy normal condition. Requires ten minutes daily.

## A Prompt Suitor

By CECILLE LANGDON

(Copyright, 1919, by the Western Newspaper Union.)

"This is no place for you, Miss Denzil," said Walter Richards, and Edna Denzil regarded him askance. "If you will allow me to call upon you this evening I will tell you why."

Young Richards spoke in a low, impressive tone and as Edna nodded as if in assent, went into the front office of Moore & Allen, drew what salary was coming to him and left the place. Edna followed him with her eyes. She confessed to a slight pang of jealousy as Richards met a flashy, bold-faced girl of her own age who had been of late quite a frequent visitor to the office. On several of these occasions Miss Martine made it a point to parade her fancied beauty and fascinations for the benefit of the young clerk and student.

There was some mystery about this Miss Martine (that neither Edna nor Richards had fathomed). When either of the partners consulted with her it was behind closed doors. She wore a certain air of audacious superiority, indicating that her visits to the firm were of great importance.

Edna puzzled her mind all the rest of that afternoon as to the reason why Walter Richards had given up his position. She has liked him from the first moment she met him. He was courteous to the point of gallantry. He had walked home with her on several occasions and Edna was attracted and pleased by his quiet, gentlemanly ways. She was glad that she had assented to his calling upon her, for he was about the only friend she had made since coming to the city.

It was seven o'clock when Richards appeared at the home where Edna boarded. "If you don't mind," he said, "suppose we take a stroll to the park, where we can find a quiet spot to talk over things," and Edna was nothing loth.

She went up to her room and reappeared dressed for outdoors, the handbag she usually carried in evidence. Richards insisted on relieving her of this. He selected a remote bench when they reached the park.

"You have probably been surprised and mystified as to my leaving Moore & Allen so abruptly," he spoke. "You also perhaps wonder at what I said about the office being no place for you. I am going to explain. I have a long, hard road ahead of me before I become a full-fledged lawyer, and I may not readily find another place, but I have learned enough concerning the devious and tricky ways of my former employers to know that every hour I remain I am imperiling my reputation for the future."

"You amaze me!" murmured Edna. "Last week they asked me to assist in deluding a client whom they were willing to sell out for a money consideration. This Miss Martine who comes so often to the office is, I am assured, a mere adventurer whom they intend to use in some plot, the details of which I have not yet learned. But I shall learn," concluded Richards, with determination. "As to yourself, I hope you will believe that I am deeply concerned in your well-being, and if I can find you another position, with more honorable men, I trust you will resign from your present one."

Edna murmured a vague assent. He was so earnest, so sincere, somehow the fervor of his apparently unselfish interest in her touched and influenced her. Then at the door of her home Richards handed her back her handbag and asked permission to call again at the end of the week.

Edna had pleasant dreams that night. She decided to trust to Richards as to changing her position. Just as she was ready to start for the office next morning she made a discovery that annoyed and worried her. She had carried in her handbag with her other belongings, a key to the office door and one to a metal cabinet where Moore & Allen kept their private papers. They were both missing. She had left the house about a square behind when Richards met her.

"I hope I have not made you anxious," he said, "but did you miss your office keys?"

"Why, yes," assented Edna.

"Here they are," said Richards extending the missing articles. She awaited him expectantly the following Saturday evening. There was a noticeable vivacity in his manner as she greeted him. "I have a strange story to tell you, Miss Denzil,—rather Edna. Now do not become offended, because I hope soon the right to call you that. I took your keys purposely."

"Oh, Mr. Richards!" cried Edna in a tone of dismay.

"Yes, to visit the office and pry into the private papers of Moore & Allen. I found what I suspected. A wealthy man named Richard Tate had employed them to look up a half niece. They found that she had died years ago, but plotted to have Miss Martine assume her identity, benefit by the claim and share her ill-gotten gains with them. When I revealed all this to Mr. Tate he became grateful for our interest in him. He has offered me a position at two thousand a year, and oh, Edna! don't you think that enough to marry on and settle down in a dear little home of our own?"

## A Woman's Message to Women

CINCINNATI, OHIO.  
"When I received your generous trial treatment, I was run-down, almost a wreck, could scarcely stay up to do my work. I had little interest in life, was irritable beyond control; but believe me when I say your treatment gave relief at once, and now I feel like a new woman. The terrible pains in my side and the heavy dragging-down feeling are all gone. I honestly believe I was saved from an operation, as I was in terrible shape from not having proper care after confinement. I ordered six boxes of your treatment, and today I am a well woman, can do my work and enjoy myself. Words cannot express my gratitude. Use my letter wherever you wish, as I am convinced there is nothing in the world like the Opaline Treatment." MRS. T. G. CARTER, 2009 Russell Ave.

DETROIT, MICH.  
"Six months ago I wrote for a sample of Mrs. Summerson's Opaline treatment. I had spent hundreds of dollars seeking health, before I overcame my prejudice to advertised medicines and used your remedy. I ordered six boxes of your treatment, and today I am a well woman, can do my work and enjoy myself. Words cannot express my gratitude. Use my letter wherever you wish, as I am convinced there is nothing in the world like the Opaline Treatment." MRS. CHARLES LENZ, 315 Sheridan Street.

BY JANE PHELPS.

Everett Asks for his Wife's Trust.

CHAPTER XXVIII.

After I made my confession, I grew still and cold with fright. Everett looked so stern, so unapproachable, so unsympathetic that I trembled all over while I waited his reply to my last outburst.

I knew I had said more than I should, more than I meant to. But once started, I seemed unable to control the rush of words. And Everett had been so nice all the time I was sick, that if I hadn't been still nervous—not perhaps so much because of my illness, as because of the reason for it—I should not have given way so.

"You seem to have thought of everything," he finally said, his tone cold and impersonal. "Even to a family."

"But you see I"—

"Never mind trying to explain. I think I understand—perhaps better than you give me credit for." I knew

by his tone I had somehow hurt him, how cruelly I could not realize. "But if you will try to have a little more faith and trust in the man you have married, you will save both of us great unhappiness and—sorrow."

"You see, Dear," he went on after a moment, "we must consider others—the effect our actions may have upon them. You think I have been severe, unnecessarily so. Perhaps I have. But Sandra I had a long talk with your mother when she was here. She did not like me to marry you, you know. She is contented that you belong to me now. She is pleased with what you have done to make yourself a really fine woman, Sandra. Don't spoil it, Dear, by showing me that after all you have gained nothing in either poise or the ability to tell what is right and what is wrong."

"But I"—

"Nothing can excuse your reading letters not intended for you—nothing! There are other things you have done of which I will talk to you later. But to read another's letters! That is inexcusable in a child, let alone in a married woman."

I felt very small, very mean, and very much ashamed, but yet it did not at all eliminate my feeling that I had been abused. It is marvellous how giving way to one's thoughts crystallizes them—how self pity swallows up all other feeling, and gives us a distorted viewpoint. Being sorry for one's self really works more havoc with women's nerves than we realize. I know it did with mine, and made me also give insignificant matters undue weight.

"I—thought I—had—the right to read them," I stammered, flushing at the look my husband gave me. "They were opened, I didn't—"

"That will do, Sandra. Your excuses are both foolish and childish. Aside from that, they are not honest. You will please put my keys on my chiffonier. Also my letters you have that do not belong to you."

I was almost glad I had been burned. If Everett had found out about the letters and nothing had happened to me, I know he would have been far more severe with me. My narrow escape from a horrible death had made him lenient. I knew; yet I felt he despised—perhaps not me, but my actions, and it made me very comfortable whenever I caught him looking at me.

His avoidance of the subject for an entire week, his tender care of me, had bred a hope that he would say nothing unpleasant to me. But I should have known better. Everett was not the type of man to pass over anything he considered vital. He hated a dishonorable action of any sort, and I do not believe ever had been guilty of one in his life.

"Please forgive me, Everett," And tears rushed to my eyes. "You have been so good time while I have been sick and have let me invite Rose, and oh, I am sorry, I have displeased you."

Everett made no reply, simply gave my hand, which I had laid upon his arm, a swift little pressure. But so quickly did he remove his hand, I scarcely realized he had touched me. But emboldened, I kissed him gently. Then with one of those quick changes which always surprised and puzzled me he crushed me just a moment in his arms, returning my kiss.

"Now run up and lie down. You mustn't overdo you know."

Tomorrow—Rose Comes.

# Making a Purely vegetable Medicine

## 1875 — 1919

In 1875, Lydia E. Pinkham of Lynn, Mass., gathered and dried the roots and herbs which she used in the now famous Lydia E. Pinkham's Vegetable Compound, from the fields and forests, — then steeped them on her kitchen stove and filled a few bottles at a time, to alleviate the suffering of her women friends, neighbors and acquaintances, and the success of this medicine was unparalleled.

After 44 Years

These illustrations show the present method by which vast quantities of this well-known remedy are produced and from exactly the same kind of roots and herbs used by Mrs. Pinkham in the beginning.

First—The various herbs used are of the finest quality, and gathered at the time their medicinal strength is the highest.

Second—After the herbs are properly ground and mixed, the medicinal properties are extracted by soaking in large stone jars, covered.

Third—Then the extract is drained through percolators, acting somewhat like a coffee percolator.

Fourth—To insure a thoroughly pure medicine, it is carefully pasteurized by heat in special apparatus, and bottled hot.

Throughout the entire process, from the crude herb to the finished medicine in bottle, cleanliness and exactness are the watch-words.

The Reliability of Testimonials Guaranteed

The testimonials published by the Lydia E. Pinkham Medicine Company come to them unsolicited. Never knowingly have they published an untruthful letter, never is a letter published without the written consent of the writer. The reason that thousands of women from all parts of the country write such grateful letters is that Lydia E. Pinkham's Vegetable Compound has brought health and happiness into their lives, once burdened with pain and illness. It is easy to realize how these poor, suffering women feel when restored to health; and their keen desire to help other women who are suffering as they did.
